

FOR IMMEDIATE RELEASE

Payvision Signs Strategic Partnership with PAY.ON

Alliance To Enhance Access to On-line Technologies

September 12, 2008 - Amsterdam, Netherlands. Payvision, one of the leading international payment solutions providers for the card-not-present marketplace, announced today it has signed a strategic alliance with PAY.ON AG, a leading international provider of payment technologies. Through this new partnership, Payvision will offer PAY.ON's complete roster of payment service providers a fully integrated connection into Payvision's global domestic acquiring system.

"We are delighted to have PAY.ON join the our expanding international network," says Rudolf Booker, CEO of Payvision. "Our powerful processing tools will afford PAY.ON's customers flexible, stream-lined solutions to optimize their multi-currency processing operations."

Payvision offers card-not-present processing services via its secure, PCI-compliant platform for all major credit cards including Visa, MasterCard, American Express, Discover Card, Diner's Club, Carte Blanche, JCB and Carte Bleue.

"Payvision's global merchant acquiring solutions, coupled with their swift underwriting and excellent service, will make them an instant success with our customers," says Robert Kuzelj, CEO of PAY.ON AG.

About Payvision

Headquartered in Amsterdam with satellite offices in New York, Boston, Madrid and Singapore, Payvision was founded in 2001 by international entrepreneur Rudolf Booker. This leading international payment solutions provider offers a comprehensive suite of products and services for the card-not-present arena. Its' core is built on multiple key components that include domestic global acquiring, multi-currency processing and alternative payment solutions. Payvision's multi-tiered platform offers flexible and feature-rich, stream-lined solutions that can be deployed worldwide. At present, Payvision provides its domestic acquiring expertise to retail communities in over 40 countries and 150 currencies. To learn more about Payvision, please visit www.payvision.com.

About PAY.ON

"PAY.ON AG is an internationally leading, PCI-certified provider of online payment technologies. The PAY.ON system works neutrally, allowing providers to present and market their own, independent brands to third parties. The company, founded in 2004 and headquartered in Munich, Germany, follows a course of steady growth and, in the medium term, aims for a strong market position as a leading international service provider in the area of online payment and payment related transactions. PAY.ON AG works together with international financial institutions, card firms, and consulting businesses. PAY.ON's core competencies are outsourcing services for payment transactions, wallet solutions, fraud control and monitoring services, as well as various technical back-end solutions.
